

Lighting and Home Automation are not just about turning lights on and making a home “smart.” They’re about making a home BEAUTIFUL. And LUTRON® products are the best on the market for doing both.

Using the Art of the Technology to Enhance Your Lifestyle

Smart homes are the way of the future, if not for improving a home’s beauty, enjoyment and convenience, then certainly for energy cost savings and greater efficiency for homeowners. However, it’s knowing how to capture your lifestyle with LUTRON® products that separates Citrom Home Automation from its competitors. And we understand how to use the technology to help you create moods, save energy, accent artwork, light your home office, entertain friends and family and enhance your every day living.

At Citrom Home Automation, We Are The Lighting Technology Experts

We are passionate about lighting and shades. Let us introduce you to LUTRON® lighting and shade products which can now be integrated with voice control to make your home beautiful and effortless. We understand that lighting and shading a home is about the homeowner and their lifestyle and we will create the perfect system and customize it just for you.
